Why Sustainable Procurement is Commercially Savvy

The pandemic has done its best to divert our attention from the issues of global warming, but the latest report from the IPCC has once again made it front and centre – where it should be.

Aim for the Stars with a Skills Gap Assessment

So you have some candidates for an open position to interview?

Great, but if you want to save some money and time, why not just flip a coin instead?

3 Ways the New VGPB Policy Can Reduce Your Risk Profile

For many government agencies, getting aligned with the new VGPB goods and services policy is a daunting task. But nothing worth doing is easy, and what the new policy can do for your procurement processes is certainly worth pursuing.
