Uncertainty is the New Certainty

All procurement teams need to ask themselves a question: are we getting any better at responding to disruptive events? Responding more effectively to disruptive events requires a deep level of capability across all facets of the procurement function.

Navigating the Great Resignation

An event as profound and far-reaching as the COVID-19 pandemic was always going to affect how we see things. For employees, this has meant looking around at their organisation and wondering if this is where they want to be.
